### ARMA@Noon Meeting

This popular “lunch and learn” style meeting where lunch is provided to the attendees is usually hosted at a conference room, courtesy of one of our corporate or law firm members. Attendees learn practical applications in records management and information governance. It is an ideal time for networking with your professional peers.

### Evening Chapter Dinner Meeting

Evening meetings usually draw a larger audience and are held at a convenient mid-town Manhattan location at or near Grand Central. Participants are seated at tables for dinner while listening to a highly respected industry leader present an interactive educational session on trending topics. Ample time is provided for networking before dinner. Sponsors may bring a banner display and distribute company information.

We try to pair sponsors with suitable speakers that complement each other.

### January or June Networking Event

These two events are our most attended social events. There is no educational program. These events are strictly social where attendees enjoy a night of networking and fun. In the past, we have had bowling, painting and other fun filled and relaxing events.
